SUMMARY

I am a creative and performance-driven Frontend Developer and UI/UX Designer with over 3 years of experience in designing, developing, and delivering user-focused web and mobile interfaces. My expertise includes building scalable design systems and developing responsive applications. I have consistently improved workflows, achieving a 95% client satisfaction rate by streamlining design-to-development processes

EXPERIENCE

Product Developer & UI/UX Designer

Teman Analytics Pvt Ltd

01/2022 Visakhapatnam

A company specializing in SaaS and analytics product development

- Spearheaded frontend design and development for SaaS and analytics products, focusing on mobile-first, responsive UIs
- Built and maintained scalable Figma design systems, successfully reducing UI design-to-development handoff time by 30%
- Partnered with backend teams to optimize performance and API integrations, cutting application load times by 25%
- Designed and launched core interfaces and multi-device testing workflows for the ASSESPAL platform
- Led the redesign of existing sites with modern UI principles, including the Transgender Surgery World website
- Delivered over 5+ product websites and UIs, achieving a 95% client satisfaction rate

Data Analytics & Python Trainer

Teman Analytics Pvt Ltd

01/2022 Visakhapatnam

Concurrent Role as a trainer for data analytics

- Delivered structured training in Python, Power BI, and Excel to over 200+ students and professionals
- Designed real-world analytics modules and dashboards for Sales, HR, and Education verticals
- Successfully mentored and helped transition over 30+ learners into full-time analytics roles or internships

PROJECTS

Topic Prep – Gamified Mobile Learning Application

📅 01/2021

- Executed the complete product design lifecycle, moving from conceptual user journeys to production-ready Figma prototypes for a scalable learning platform.
- Developed interactive UI assets for gamified modules (Solo/Friends modes, Quizzes) and data visualization dashboards, optimizing the overall user experience (UX).
- Created interfaces for features like 'Play Solo', 'Play with Friends', quizzes, and user analytics dashboards to improve engagement.

Skill Medha – Multi-Portal Placement & Education CMS

📅 01/2021

Web platform for managing educational records

- Designed and implemented a comprehensive web platform for students, colleges, and corporations to manage educational records and practice modules
- Built dynamic UI components, admin interfaces, and verification workflows, integrating Redux for state management

Corporate Website Revamps

Redesign projects for corporate websites

- Led end-to-end design revamps for over 50 static and dynamic websites using HTML, CSS, and JavaScript
- Implemented modern, SEO-friendly components, dark mode, and carousel banners to improve brand consistency and responsiveness

E-Commerce Platform

E-commerce platform focused on user experience

- Designed and built a conversion-focused e-commerce platform for product browsing, cart management, and checkout
- Integrated Razorpay for payment handling and developed admin dashboard wireframes for managing orders and inventory

Power BI Product Analytics Dashboard

Analytics dashboard for product performance tracking

- Developed an interactive Power BI dashboard to track real-time product performance KPIs
- The dashboard helped identify underperforming features, leading to workflow optimizations that reduced operational inefficiencies by 20%
