Professional Experience

Teman Analytics Pvt Ltd – Visakhapatnam

Product Developer & UI/UX Designer (2022 – Present)
- Spearheaded frontend design and development for SaaS and analytics products, focusing on mobile-first, responsive UIs.
- Built and maintained scalable Figma design systems, successfully reducing UI design-to-development handoff time by 30%.
- Partnered with backend teams to optimize performance and API integrations, cutting application load times by 25%.
- Designed and launched core interfaces and multi-device testing workflows for the ASSESSPAL platform.
- Led the redesign of existing sites with modern UI principles, including the Transgender Surgery World website.
- Delivered over 5+ product websites and UIs, achieving a 95% client satisfaction rate.

Data Analytics & Python Trainer (Concurrent Role)
- Delivered structured training in Python, Power BI, and Excel to over 200+ students and professionals.
- Designed real-world analytics modules and dashboards for Sales, HR, and Education verticals.
- Successfully mentored and helped transition over 30+ learners into full-time analytics roles or internships.

Freelance Research Writer – Remote

(Dec 2020 – Jun 2021) Created high-quality, research-driven content on technical and academic topics for various clients.

Key Projects

TopicPrep Mobile App (Gamified Learning App)
- Designed the complete UI/UX flow and visual assets for an extensive mobile learning application.
- Created interfaces for features like 'Play Solo', 'Play with Friends', quizzes, and user analytics dashboards to improve engagement.

Skill Medha - Education & CMS Platform

- Designed and implemented a comprehensive web platform for students, colleges, and corporations to manage educational records and practice modules.
- Built dynamic UI components, admin interfaces, and verification workflows, integrating Redux for state management.

Corporate Website Revamps (Synsper Technologies & Others)

- Led end-to-end design revamps for over 50 static and dynamic websites using HTML, CSS, and JavaScript.
- Implemented modern, SEO-friendly components, dark mode, and carousel banners to improve brand consistency and responsiveness.

E-Commerce Platform (Dry Fruits Store)

- Designed and built a conversion-focused e-commerce platform for product browsing, cart management, and checkout.
- Integrated Razorpay for payment handling and developed admin dashboard wireframes for managing orders and inventory.

Power BI Product Analytics Dashboard

- Developed an interactive Power BI dashboard to track real-time product performance KPIs.
- The dashboard helped identify underperforming features, leading to workflow optimizations that reduced operational inefficiencies by 20%.
